

MyDengue

Spot It, Report It, Stop Dengue

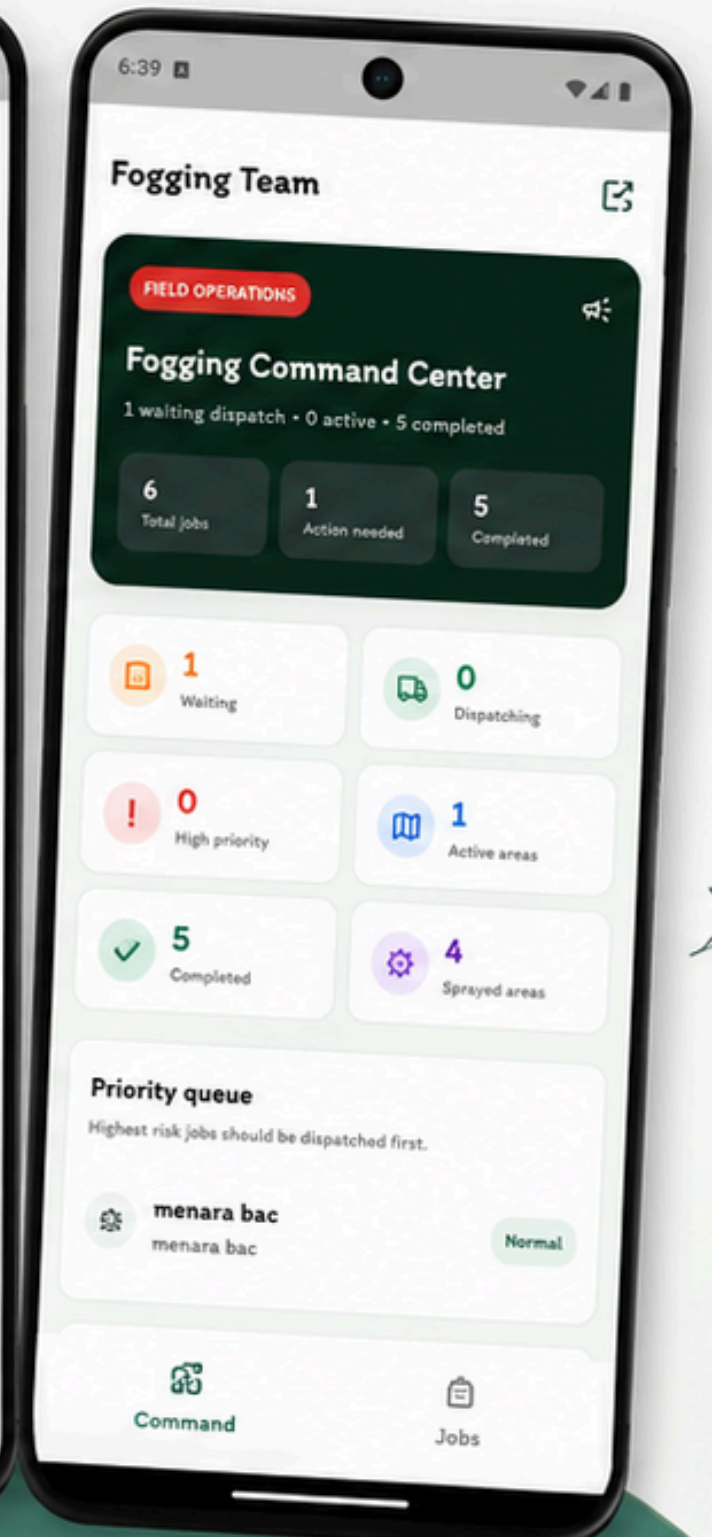

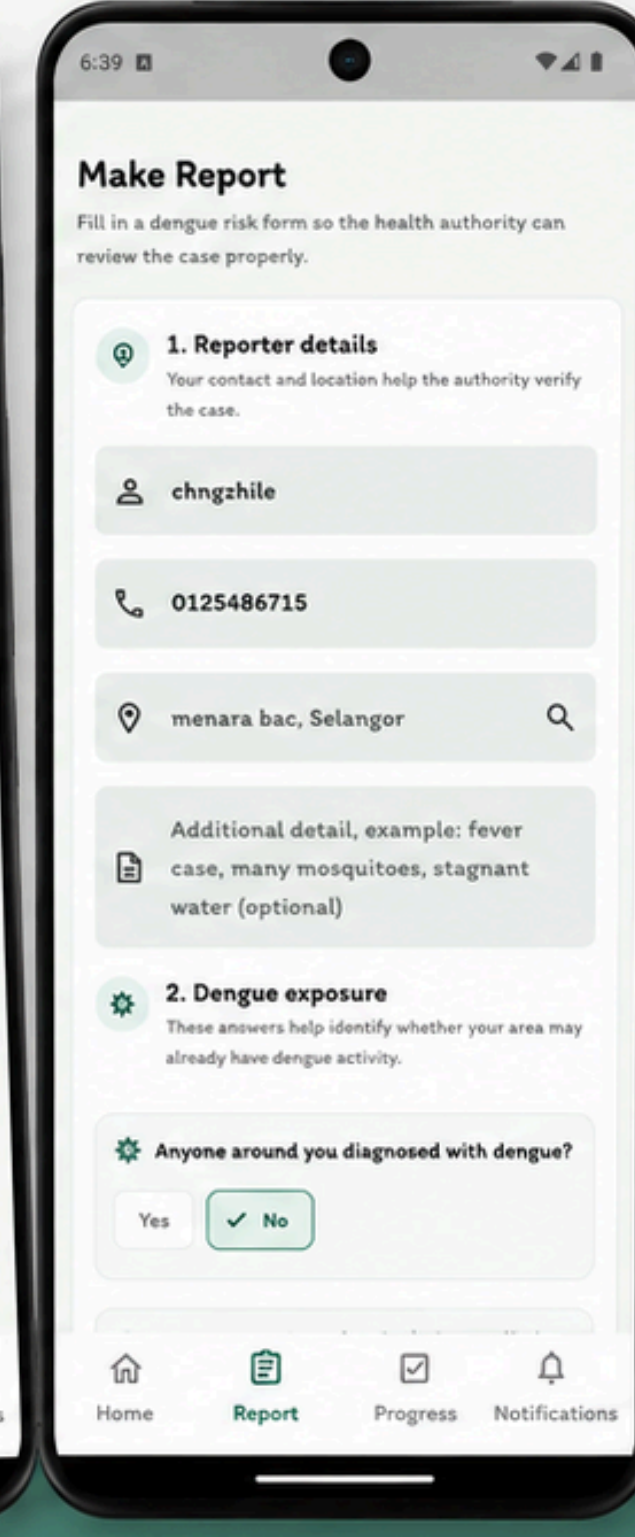

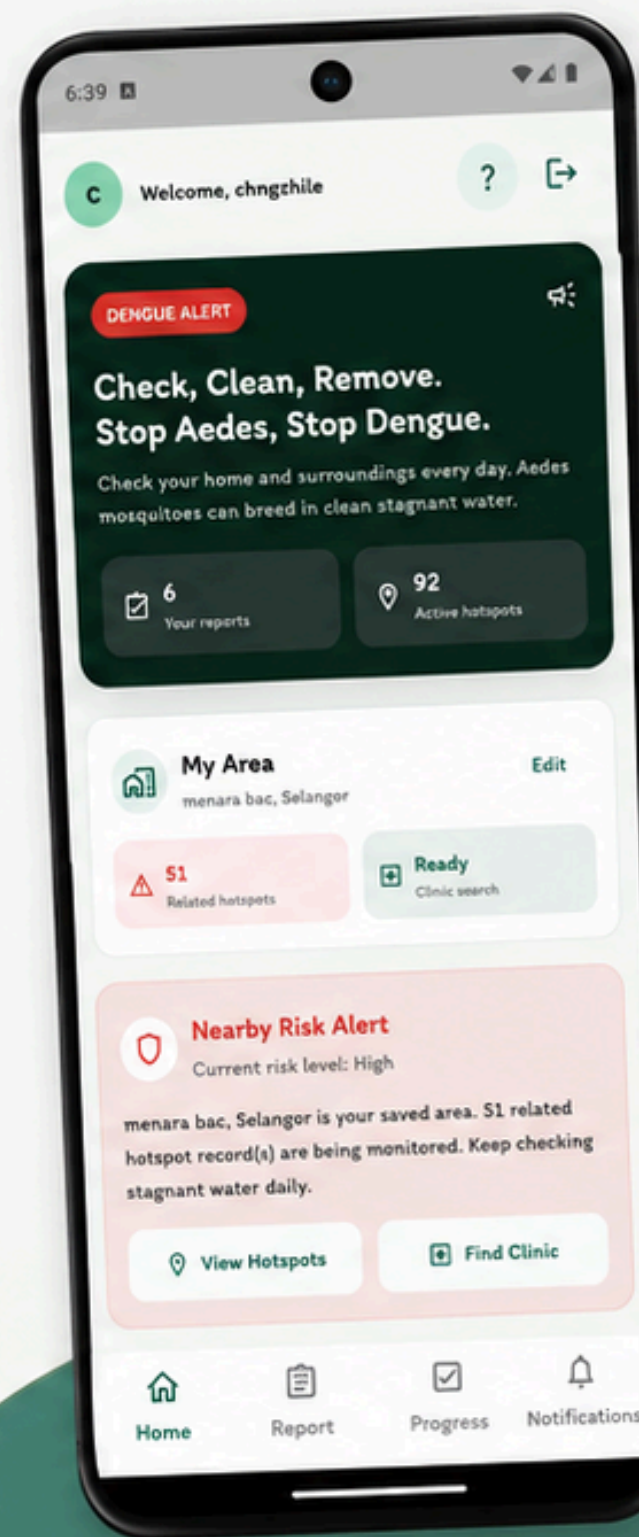

A Mobile App for Localized Dengue
Reporting and Community Response

CH'NG ZHI LE

UNIMY

Why MyDengue?

❌ Info without action

⚠️ Dengue cases rising in your area

ℹ️ Remove stagnant water

📅 Spray schedule today

❌ Reporting is fragmented

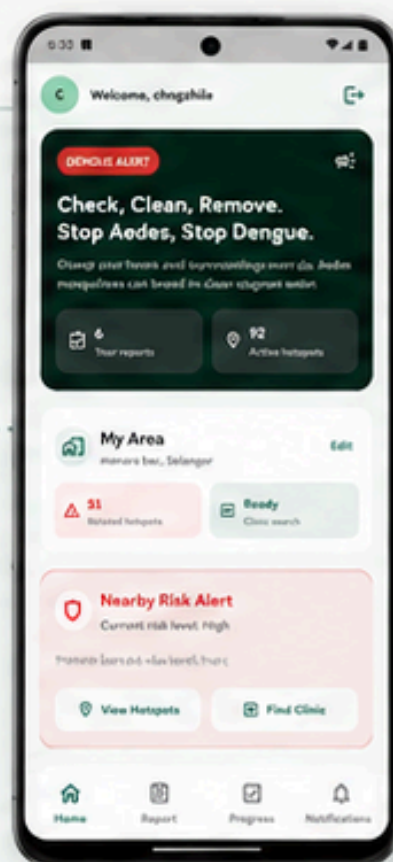

❌ No clear status tracking

What happens after I report?

User

One platform for report, review, response, and updates.

Strong pilot support for a transparent, community-based dengue reporting platform.

How MyDengue Works

From public reporting to official response

1

Report

User submits photo, address, and risk details

2

Review

Health authority verifies the report

3

Respond

Fogging team receives the task and takes action

4

Track

Users see status updates and receive notifications

9:41

Make Report
